UI/UX Development

Adobe Photoshop, Illustrator,

Figma, Canva

SUMMARY

Software Developer with experience building web applications and CRM systems. Skilled in JavaScript, Node.js, Docker, and AWS, with knowledge of frontend and backend development. Focused on creating efficient, scalable, and user-friendly software solutions.

WORK EXPERIENCE

• Software Developer at DG-Property

Developed and maintained a CRM system for property management and broker operations. Designed modules for broker tracking, management dashboards, financial tracking, and workflow automation. Integrated system functionality to improve operational efficiency, reporting, and business process management.

Key Contributions:

- Built web-based management solutions
- Developed tracking and reporting modules
- Improved workflow automation
- Managed system debugging and optimization
- Supported database integration and maintenance
- Worked with deployment and development tools including Docker and AWS environments

TECHNICAL TOOLS

- Languages: JavaScript, HTML, CSS
- Backend: Node.js, Express
- Database: MongoDB, MySQL
- Cloud & DevOps: Docker, AWS
- Version Control: Git, GitHub
- Design: Figma, Adobe Suite, Canva

Graphic Designer / Digital Designer

Take alot

- Created digital assets, UI layouts, and branding materials for marketing campaigns and business platforms. Collaborated with teams to improve digital user experiences and visual communication.

LANGUAGE

English

French

WORK EXPERIENCE

● Web Developer & Designer

Micrologistics

- Built web applications using React, Node.js and PostgreSQL.
- Developed REST APIs and integrated third-party payment and CRM services.
- Set up Docker-based environments and CI/CD pipelines for faster releases.
- Worked directly with clients across Johannesburg to scope and deliver projects.

● Software Developer

Kamu Support

- Built web-based management solutions and CRM modules.
- Developed tracking and reporting modules used across teams.
- Improved workflow automation and reduced manual operations.
- Managed system debugging, optimization and database integration.
- Worked with Docker and AWS for deployment and dev environments.

● Web Developer & Designer

Joburg Creative Studio

- Designed and developed responsive websites and landing pages for local businesses.
- Created brand identities, UI layouts and marketing assets for campaigns.
- Optimized sites for performance, SEO and mobile experience.
- Collaborated with marketing teams to align design with business goals.

● Digital Marketing Manager

MMC

- Planned and managed digital marketing campaigns across social media, email and web.
- Grew brand reach and engagement through targeted content and paid ad strategies.
- Analyzed campaign performance and optimized for conversions and ROI.
- Coordinated design, content and ad creative for consistent brand messaging.
